Bob:

I mentioned to you the other day the establishment of an R&D Panel to better support DDA requirements. In order to make sure that the Panel's product is melded in with the DDA program, I would suggest adding the following as item f. on the attached R&D Panel announcement:

Coordinate R&D requirements with DDA Management Staff that are to be included in the Agency Program/Budget.

As you know, R&D budgeting was done by DDS&T but we are expected to justify our needs and defend or fight for our priority needs.

If you think of a better way of handling this, let me know.
